Proposed Creative Europe project – to which project are you looking for partners?

Sector or field	Multidisciplinary
Description or summary of the proposed project	We are looking to build a laboratory together with partners on the topic of professional integration of artists in exile in the European creative and cultural sector. With In Ex(ile) lab, we would like to experiment both transdisciplinary integration paths for artists in exile and innovative participation and collaboration models to safeguard and foster diversity in cultural institutions. The objective is to determine how artists in exile can develop and strengthen their capacities in the search of professional opportunities, which will allow them to live from their work and favour their emancipation as individuals. Another objective is to reflect on how cultural spaces can champion diversity, invent new territories of creation and emancipation in a rapidly changing environment and a post-colonial age.
