ONLINE AR/VR DIRECTORY

Introduction

Creative Europe Desk NL MEDIA and VR Days are delighted to present this Online AR/VR Directory. In the fast growing market of AR/VR there is a need for a comprehensive mapping. We collected European organisations in the AR/VR or related to the XR industry aiming to create a more visible European AR/VR industry and to increase European collaboration. The directory is structured by country participating in Creative Europe MEDIA (and Switzerland) and by category: Association, Education, Fund, Startup Network and Trade Organisation.

The directory is intended as a tool for AR/VR organisations, developers, festivals and AV markets seeking support, collaboration and co-production. In particular, the directory should assist potential applicants of the Creative Europe MEDIA sub-programme.

The production of this directory is a European collaboration, with most Creative Europe Desks MEDIA providing information on AR/VR organisations in their own territory.

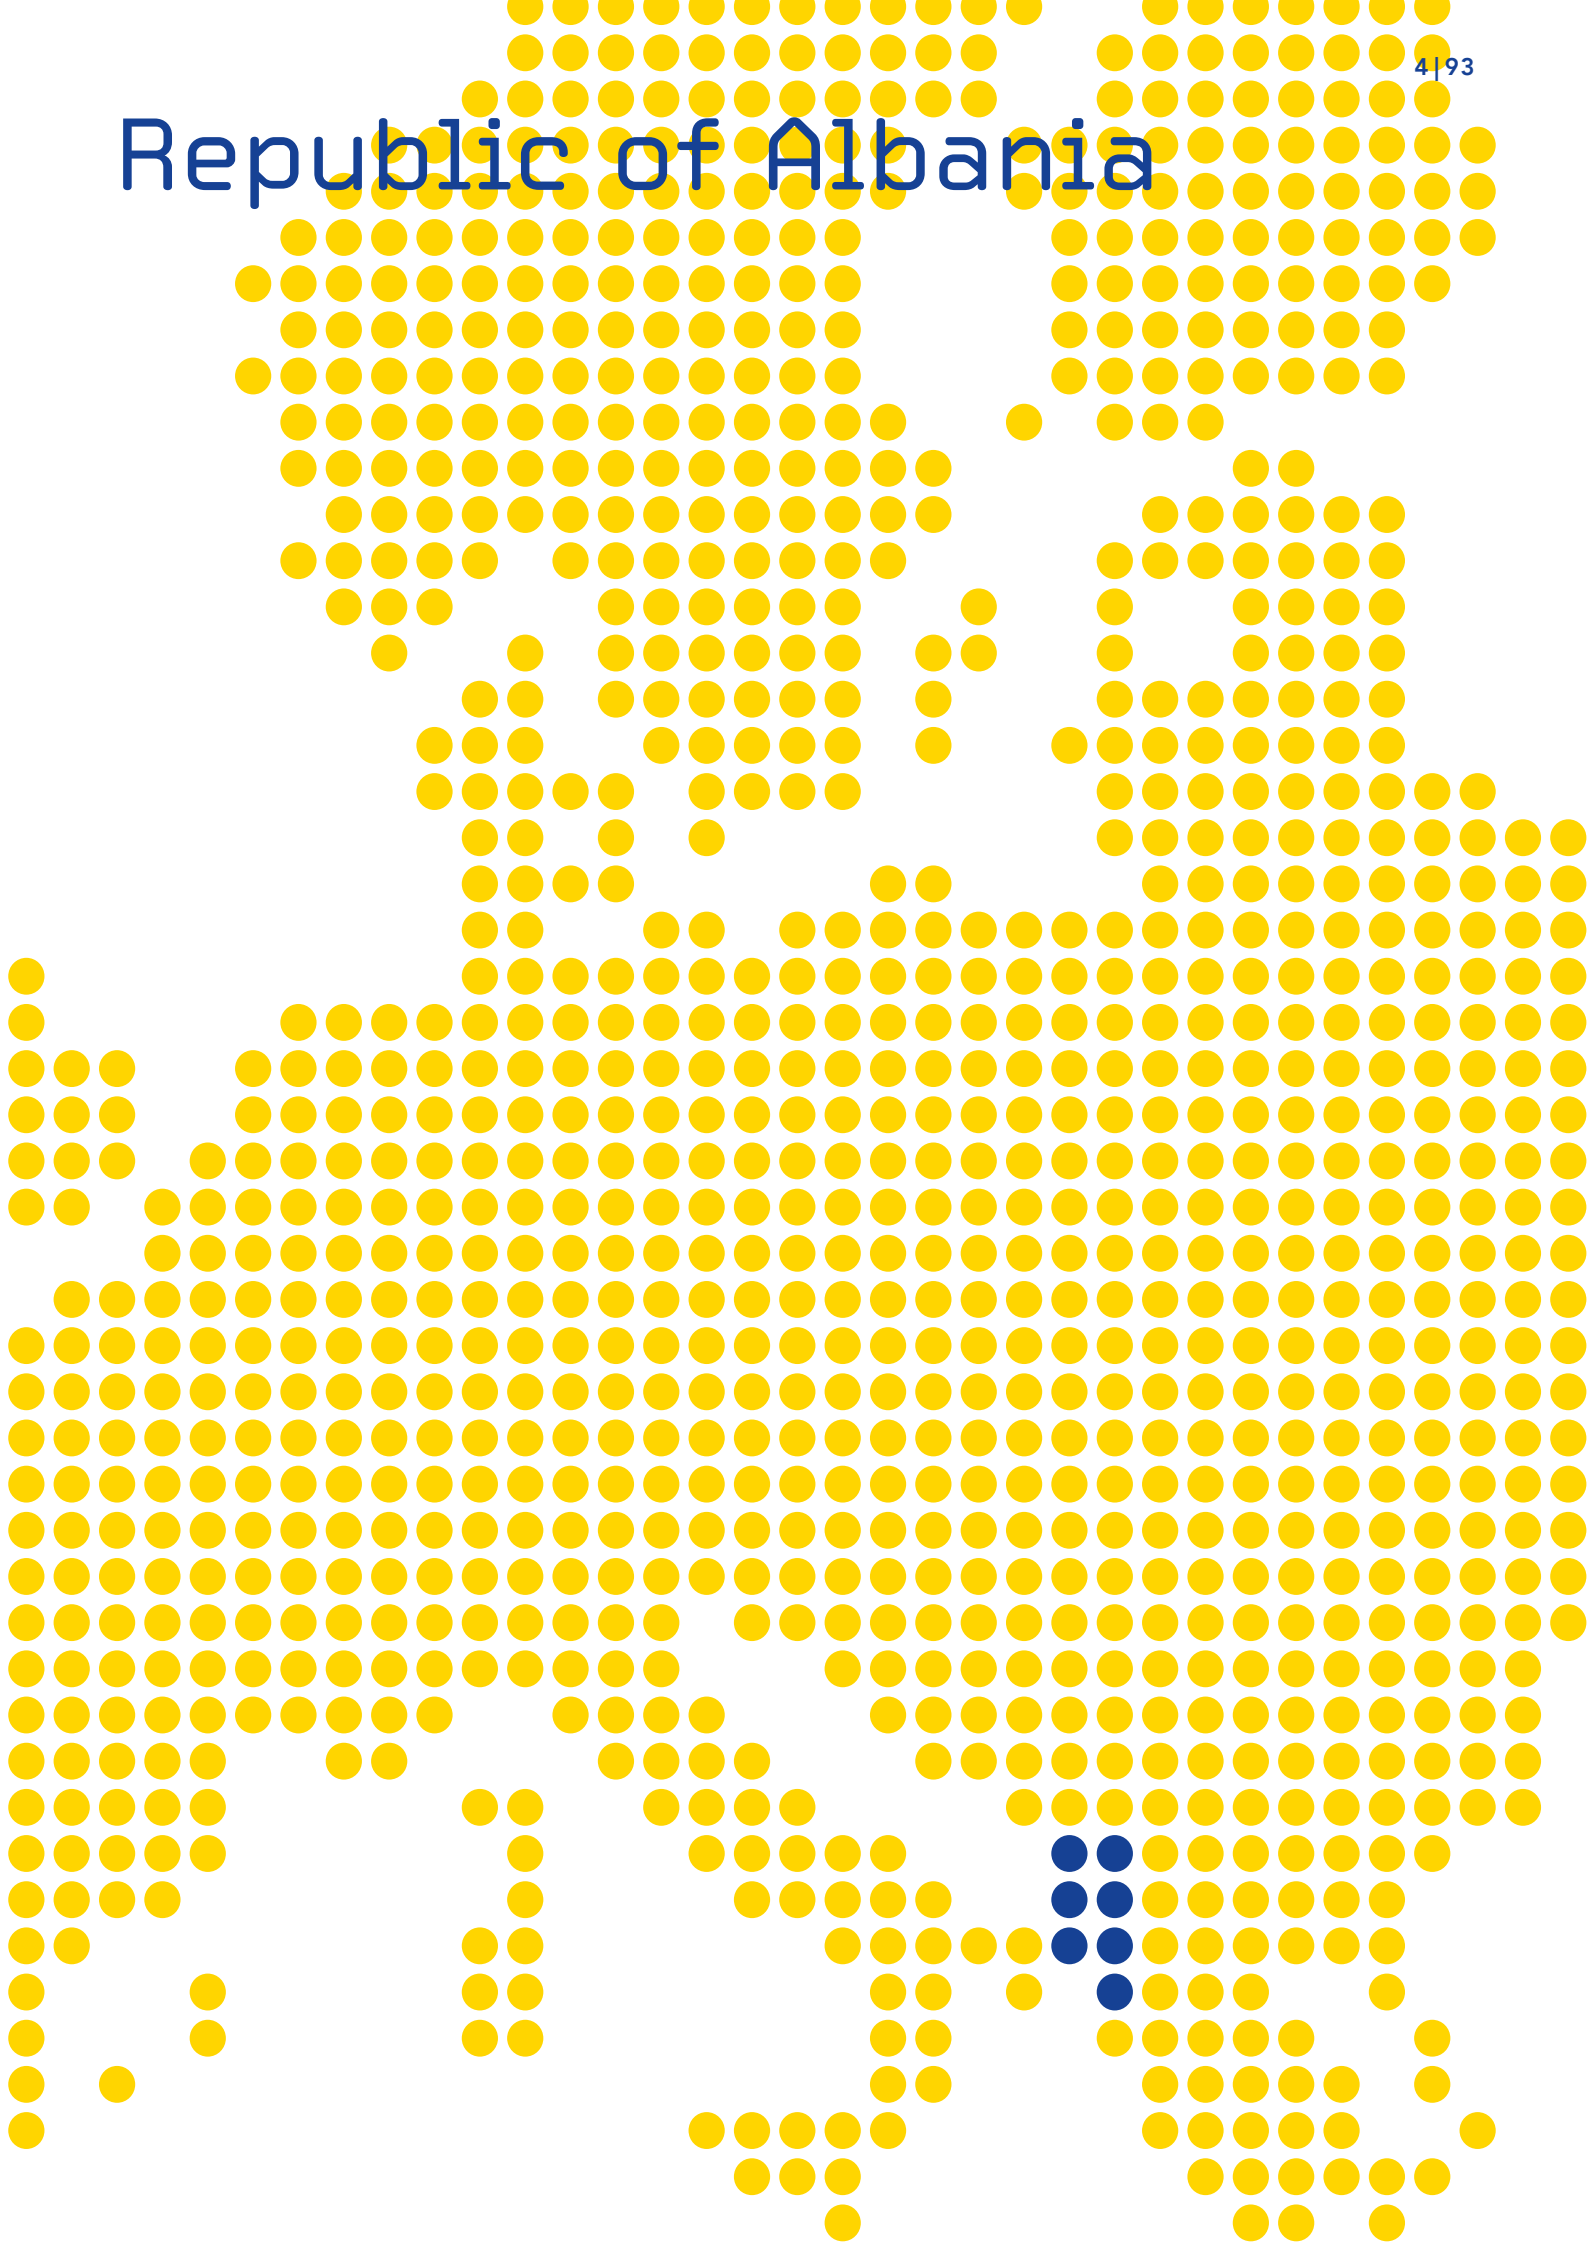

We hope the Online AR/VR Directory will prove to be a valuable resource. Your feedback is welcome at MEDIA@CreativeEuropeDesk.nl.
