Sector or field	Festivals   Concerts   Exhibitions   Art Installations   Urban Interventions   Performances   Workshops
-----------------	---

Description or summary of the proposed project	<p>One of Iminente's goals is to design a programme to consolidate its positioning as an <b>international platform of urban culture experiences</b>, from diverse creative and cultural contemporary expressions, embraced by urban culture, augmenting its national and international notoriety and visibility. Iminente aims to reach a broader European audience, together with our partners, by giving visibility to Portuguese artists (from various artistic backgrounds) and at the same time, be a platform of visibility and integration of other emerging artists from Europe. There are two events that reflect Iminente values and objectives: Festival Iminente and the Community Workshops Bairros.</p> <p><b>Festival Iminente</b> is where the best expressions of urban culture come together in an explosion of creativity and entertainment. Converging both renowned and emerging artists from diverse backgrounds, it is an amalgamation of cultures, languages and styles. Grounded by core values based on diversity, inclusivity, equality and visibility.</p> <p><b>The Community Workshops</b> take place in city neighbourhoods where artistic practice and fruition are distant, or that are socially segregated. Developed in partnership with local social organizations and a diversity of artists, they have been devised to promote synergies and connections between people from different socio-cultural and economic backgrounds and creative areas. These workshops engage communities and artists in the development of collaborative work, calling upon the participation of children, youths and older generations, to create outputs such as public art installations, urban interventions, performances and music</p>
