

CREATIVE EUROPE

# Digital management for ~~live~~ artists

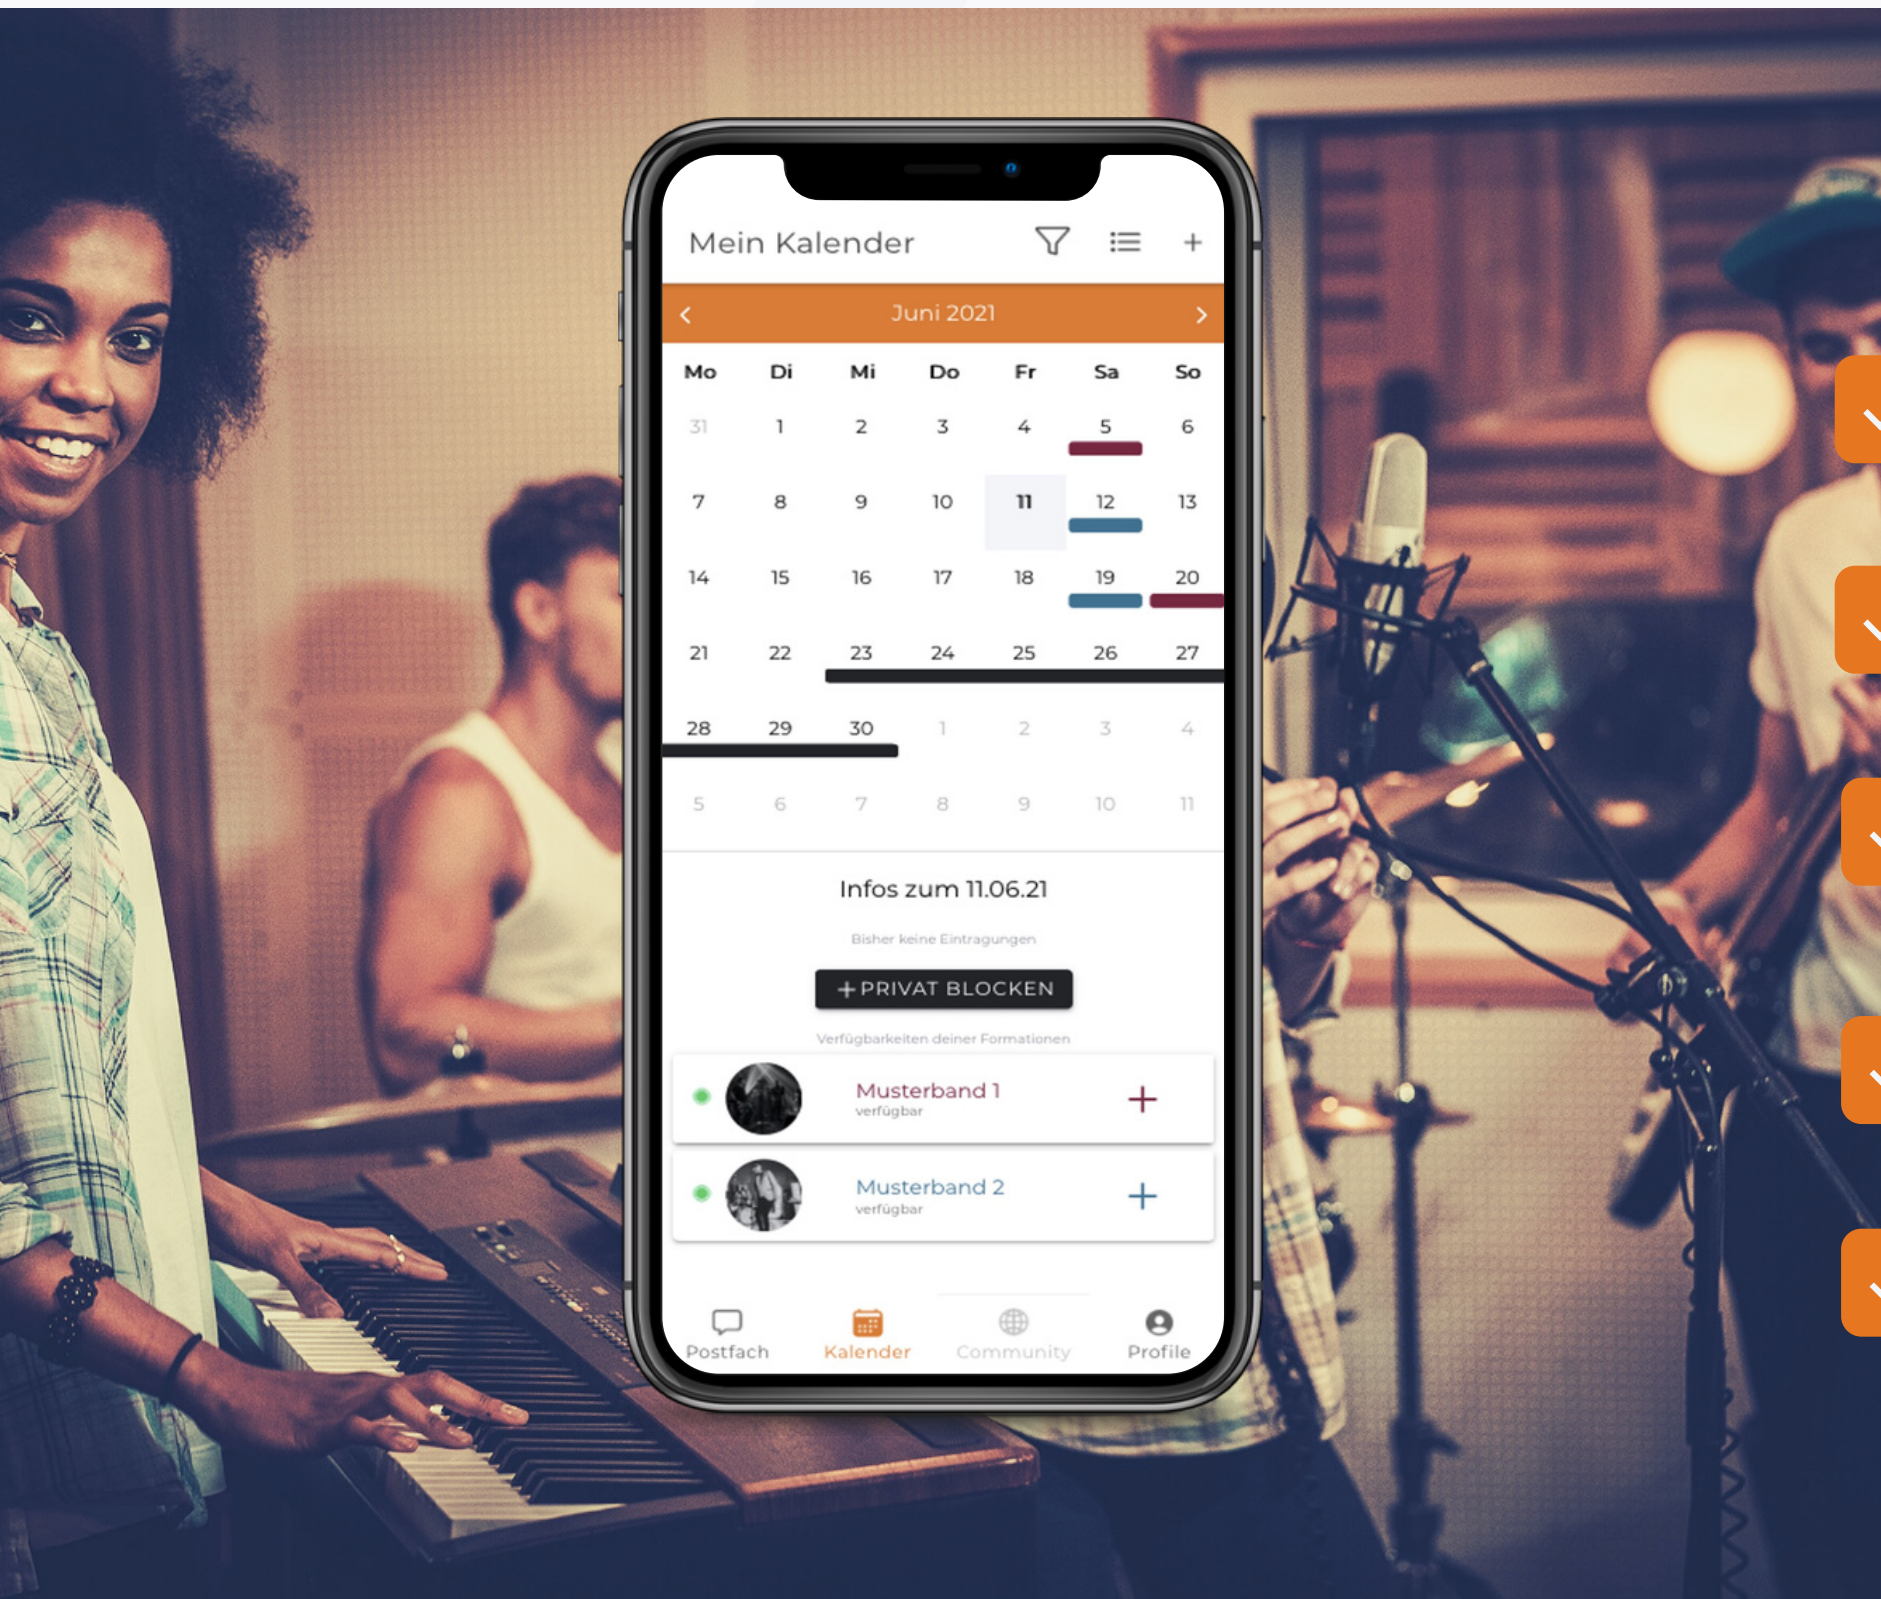

The AI-backed digital agent for all artists.

# Our USP - The digital manager for artists

Why artists prefer our service ...

## PROVIDING SPACE FOR ART TO REMAIN A PASSION

The digital agent is designed by artists for artists - developed according to their needs.

We offer a unique calendar tool combining the features of several tools in one application designed for live artists.

We provide individual support and advice from music industry-, business- and marketing experts.

We offer AI-supported matching of artists and event organizers to improve and ease the booking processes.

We automatize the back office for all DIY-artists with automatic invoicing and contracting according to data of the calendar. No need for another tool.

# Open our service for AV & single artists

Allow for bookings of solo-artists and arranging whole groups.

## WHAT WE WANT TO ADD...

✓ Film composers asked us to set up tools to also find single artists for their productions.

✓ We want to offer to find & book musicians with special instruments for special productions: e.g. a bass flute for a medieval themed recording.

✓ We could open the service also for actors & visual artists - but we need input and funding to extend.

**WE LOOK FOR PARTNERS TO CONCEPTUALIZE AND IMPLEMENT**

Interested in adding value to this project? Shoot me a message!
