## CulturEU funding guide

**A user-friendly interactive online tool and guide featuring all EU funding opportunities for the cultural and creative sectors.**

### What is the CulturEU funding guide?

This is a new tool for cultural stakeholders to navigate available funding opportunities for culture in EU programmes for the 2021-2027 period. Thanks to this, more than 75 funding opportunities are only a few clicks away. The European Commission developed the tool to support all types and sizes of cultural and creative stakeholders to help them navigating the EU funding landscape. The tool will also help understand which opportunities are available and how to access EU funding more easily. The funding guide is available in all official EU languages.
