Description

We can collaborate, as partners, to projects working on the audience development and works and promotion of art among children and young people, related to painting.

This partner offers more than 30 years of experience as cultural actor and its resources (galleries, workshop spaces, Francisco de Goya Museum, training centres, etc.) from Spain. Fundación Ibercaja will focus on cultural activities in the field of:

- Art and technology (audiencies development through Virtual Reality)
- Promotion of young artists in the discipline of painting (mobility of artists and art works).
- Dissemination of the project.

GOYA MUSEUM

The **Goya Museum. Ibercaja Collection-Camón Aznar Museum** is the gateway to the legacy of the artist and in 2017 alone was visited by **over 70,000 people**. The core of the museum consists of 15 works by Goya and several complete series of his prints. There are also 500 works on display by artists who were prior, contemporary or subsequent to Goya which help to contextualise his genius and understand his impact on the history of art. Furthermore, the Ibercaja Foundation reaches more people by taking its works around the country in travelling exhibitions at the Foundation's cultural centres. <https://museogoya.ibercaja.es/>
